

Application No.: 09/715,131

Docket No.: 30004773-1 US (1509-135)

REMARKS

The Office Action of September 23, 2006 has been carefully studied.

Claims 1-30, 32, 34, 47-52, 57, 58, 62, 64-66, 68 and 70-78 are cancelled.

Claims 31 and 33 now require narrow and wide bandwidth links respectively having long and short ranges. The transfer is via the wide bandwidth link immediately after the notification if the mobile device is in the range of the short range link. If the mobile device is not in the range of the mobile device, the transfer is immediately via the long range link or is subsequently via the short range link when the mobile device is in range of the short range link. The dependent claims have been appropriately amended. Claim 53 has been amended to require the network to respond to a transmission resulting from an input by a user of the mobile device that the user wants to receive the data by transmitting the data to the second transmitter. Claim 63 now requires scheduling the sending of the data via a short or long range link, respectively having narrow and wide bandwidths.

New claims 79-84 define features mentioned on page 13, lines 15-26 of the application as filed.

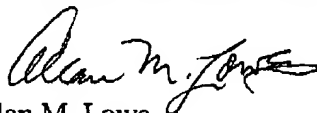

Because the foregoing features are not found in the previously applied references, allowance is in order.

Application No.: 09/715,131

Docket No.: 30004773-1 US (1509-135)

To the extent necessary, a petition for an extension of time under 37 C.F.R. 1.136 is hereby made. Please charge any shortage in fees due in connection with the filing of this paper, including extension of time fees, to Deposit Account 08-2025, and please credit any excess fees to such deposit account.

Respectfully submitted,

James Thomas Edward MCDONNEL *et al.*
